

Product Guide

September 2011

THE PUNCHLOCK® ADVANTAGE

Bailey's Professional range of ladders are manufactured using our Punchlock construction technology. Combined with our unique double hollow tread design, this gives the distinct advantages of strength, stiffness and durability unmatched by riveted ladders.

PUNCHLOCK® SUPER STRONG

- 66% stronger than conventional riveted type ladders
- Increased strength and durability

DOUBLE HOLLOW TREAD TWIST RESISTANT

- Increased rigidity and stiffness in the ladder frame
- Reduces ladder twisting

TRI-BRACING SUPER STABLE

- Strongest support between tread and stile
- Eliminates catch points

LIGHTWEIGHT DESIGN SUPER LIGHT

- Industrial strength and safety with a lightweight advantage
- Reduces strain and fatigue

All these distinct advantages are engineered into our Professional range of Aluminium and Fibreglass ladders.

Discover the advantage yourself – invest in our superior Professional range of ladders that will give you years of service.

Bailey is proud to deliver exciting news about its range of aluminium step and extension ladders. We've upgraded all the old favourites and have a brand new offer of riveted ladders sporting the Bailey brand.

Upgraded Professional Range

With its Punchlock construction, the Bailey range has always offered the optimum mix of strength, durability and light weight. With our new upgraded **Professional Range** offering, we have made some changes to allow us to make the most of this superior construction method. Our **Professional Range** now has a 150kg or 170kg industrial load rating. This is the range aimed at those who use their ladder every day and need a product they can trust, year after year.

New Riveted Trade Range

Our new **Trade Range** is ideal for those who use their ladder a little less frequently. Whether it's a couple of different types and heights for unusual jobs, or for use at home, the **Trade Range** offers great value. The **Trade Range** has an industrial load rating of 150kg.

Household Range

Bailey continues to offer a high quality **Household Range** of ladders, designed for use in and around the home.

Selecting the Right Ladder

| HOUSEHOLD | TRADE | PROFESSIONAL |
|--|---|--|
| Domestic rated | Riveted construction Industrial rated | Punchlock® construction Industrial rated |
| Our range of 100kg and 120kg domestic load rated products. | Our all new range of riveted ladders, with industrial load rating of 150kg. | We have upgraded our popular Punchlock range so they now have load ratings of either 150kg or 170kg. |

Ladder Size

Common height requirements

| Height to reach | 2.4m | 3.0m | 3.5m | 4.0m | 4.5m | 5.0m | 6.0m | 7.0m | 8.0m | 9.0m |
| Size to purchase | 3.9m | 4.5m | 5.0m | 5.8m | 6.4m | 6.6m | 7.8m | 9.0m | 9.7m | 10.3m |

Step Stools

PAGE 4

Used in low reach environments, typically for storage retrieval and cupboard access. (Domestic & Industrial)

Single Sided Stepladders

PAGE 6

A general purpose stepladder accessed from one side only. (Industrial)

Double Sided Stepladders

PAGE 8

An 'A' frame stepladder which allows access from either side. (Industrial)

Dual Purpose Stepladders

PAGE 11

Highly versatile – converts from a stepladder to a straight ladder. (Industrial)

Platform Stepladders

PAGE 13

Provides a safe work platform when 'working at heights'. Can be closed for storage. (Industrial)

Step Extension Ladders

PAGE 27

Versatile design which can be used either as a stepladder or extendable straight ladder. (Industrial)

Extendable Stepladders

PAGE 12

Highly versatile – can be used as both a stepladder and a straight ladder with adjustable heights, as well as being separated into two low-level trestles. (Industrial)

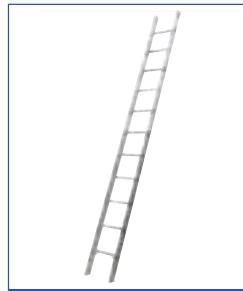

Extension Ladders

PAGE 19

Designed for height access for builders, carpenters, plumbers and serious DIY. Height adjustable. (Domestic and Industrial)

Single Ladders

PAGE 21

Designed for height access for builders, carpenters, plumbers and serious DIY. Fixed length. (Industrial)

Fibreglass Ladders

PAGE 26

A versatile range of fibreglass ladders designed for electrical contractors. (Industrial)

Trestles

PAGE 22

'A' frame trestles designed to support planks typically for painting. (Industrial)

Planks

PAGE 23

Work platforms usually used in conjunction with trestles. (Industrial)

Work Platforms

PAGE 16

Foldable work platforms designed for ease of portability. (Industrial)

Order Pickers

PAGE 17

Used for moderate/frequent use stock picking applications. (Industrial)

Mobile Scaffolding

PAGE 24

Safe and secure work platform for working at heights. (Industrial)

Household 100kg Platform Stepladder

HOUSEHOLD DOMESTIC
100KG

- Domestic Duty Rated. Designed for use around the home

Mini Rise™ – Aluminium 225kg W.L.L. (2 person)

Mobile Scaffolding

- Tested and Passes AS/NZS 1576.1 & .3
- 225kg Working Load Limit (W.L.L.) (2 person)
- Registered design by Victorian Work Cover REG # V0320131 (Reciprocal rights in all other states)
- Wide and stable working platform (1800mm x 700mm) up to a maximum platform height of 3.7m
- Integrated trapdoor to allow safe internal access to the work platform
- Optional adjustable castors available for use on uneven or sloping surfaces
- Non-slip platform surface
- Complete with full work instruction
- Fully welded construction
- Lightweight frame and braces constructed using super tough T6 Aluminium
- Super quick set up time (2 minutes, Base Pack)
- Compact design to allow for easy storage and transport (overall dimensions when folded L=1900 x W=940 x D=300)
- Lockable swivel castors for easy and quick relocation
- Designed to fit through narrow internal/external work spaces
- Australian made and owned
